## Summary

Motivated B.Tech graduate (2025 batch) with hands-on experience in **MERN stack development** and a **basic, foundational understanding of Java**. Possesses **basic knowledge of the Software Development Lifecycle (SDLC) and Agile methodologies**, along with strong analytical and problem-solving skills. Focused on building efficient, scalable solutions aligned with business and client requirements, and eager to learn, take ownership, and contribute effectively as a fresher.

## Education

**Vels Institute of Science, Technology and Advanced Studies**

Chennai, India

B.Tech Computer Science and Engineering

2021 – 2025

CGPA: 7.36

## Technical Skills

- **Languages:** Java, JavaScript, HTML, CSS
- **Frameworks:** React.js, Node.js, Express.js, Tailwind CSS
- **Databases:** MongoDB, MySQL
- **Tools:** Git, GitHub, Postman, APIs, Testing, Debugging
- **Methodologies:** SDLC, Agile
- **Soft Skills:** Analytical and Problem-Solving, Communication, Teamwork, Ownership

## Certifications

- Java Fundamentals – DataCamp
- JavaScript – Guvi
- SQL Fundamentals – DataCamp
- Full Stack Development – Guvi

## Experience

**Frontend Developer Intern – All India Translink Company**

April 2024

Chennai, India

- Built responsive web interfaces using HTML, CSS, and JavaScript to improve user experience.
- Optimized performance and cross-browser compatibility through debugging and UI improvements.
- Collaborated with backend teams to integrate REST APIs ensuring seamless functionality.

## Projects

**LuxeStay – Luxury Hotel Booking & Property Management System**

*MERN Stack, REST APIs, MongoDB*

- Developed a full-stack hotel booking platform supporting room reservations, dining, spa services, and concierge requests across multiple branches.
- Built role-based dashboards for **Admin, Staff, and Guests** enabling booking management and operational tracking.
- Implemented booking workflow, payment tracking, review system, and analytics dashboards.

**Stock Prediction Web-App using Machine Learning**

*Python, Streamlit, LSTM*

- Developed a stock prediction model using LSTM neural networks with real-time financial data.
- Integrated Yahoo Finance API and implemented moving-average visualizations.
- Built an interactive Streamlit interface for prediction insights.

## Languages

Tamil (Native), English (Fluent)
